STANDARD - Standard Polyclonal Antibody Package \$1,300 (75 days)

- Antigen Design/Bioinformatics
- 15-mer peptide, 10 mgs at 85%
 - 5mg uncoupled to customer
 - 4mg coupled to KLH
 - 1mg for ELISA
- Mass Spec and HPLC trace
- Immunization of 2 New Zealand White Rabbits
- 5mls preimmune serum per rabbit
- 40-50mls antiserum per rabbit
- ELISA on 1st production bleed

AFFINITY - Affinity Purified Polyclonal Antibody Package \$1,950 (90 days)

- Everything in the Standard Package plus:
 - Extra peptide to generate affinity purification column
 - Affinity purification of 40-50 ml antiserum

PSSA - Phospho Specific Affinity Purified Polyclonal Antibody Package \$3,500 (90 days)

- Antigen Design/Bioinformatics
- 2 peptides, both at 90% purity
 - 10 mg phospho peptide
 - 10 mg non phospho peptide
 - 5 mg of each peptide to customer
- Mass Spec and HPLC trace
- ELISA on 1st production bleed
- Immunization of 2 New Zealand White Rabbits
- 5mls preimmune serum per rabbit
- 40-50mls rabbit antiserum
- Double affinity purification to yield phospho-specific antibody

| N-term (Ac or NH ₂) | Sequence - please use one letter code or contact us with your protein sequence and we will review for the best antigen(s) | C-term (OH or NH) | Antibody Package of Interest |
